Puzzling Case on Trial in the Circuit Court.

NEWS OF ALL LOCAL COURTS

Living Sharpsteen Sues Three Big Corporations for Damages for His Team—Criminals on Trial.

A puzzling and somewhat peculiar case was opened in the circuit court yesterday before Judge Grove. Irving Sharpsteen, of Wyoming township, was driving his favorite team of horses along Monroe street, when a telegraph wire running from the Grand Rapids & Indiana railroad company's office to Prosser and Harkness' jewelry store broke, fell across the trolley wires of the Consolidated Street Railway company, away to and fro, and struck the horses, killing one instantly and severely shocking the other. He refused to take the horse yet living. It was put into Greenleaf's barn, and later into the pound. Here it was sold at auction to Walter Tate for \$12, and later by him for \$50. Sharpsteen wanted to recover the value of his team, but all parties denied blame. It was afterwards learned that men in the employ of the Grand Rapids Electric Light and Power company had been repairing wires on a pole, near which the telegraph wire passed, and in some manner, were responsible for the snapping of the wire.

McKnight and Fairfield were engaged as attorneys by Sharpsteen, and defendants were made of the Grand Rapids & Indiana Railroad company, the Grand Rapids Electric Light and Power company and the Consolidated Street Railway company. First one and then the other of the lawyers for the companies wanted action against their clients dismissed, alleging that neither was to blame, but the court refused to entertain the motions. The plaintiff wants pay for both horses, and places damages at \$500. Fourteen witnesses in all were sworn. The case will go to the jury today.

ARRESTED FOR ROBE STEALING.

Tricky Thieves Brought to Bay by the Officers.

Sylvester Allen was arrested several days ago on suspicion of having stolen a robe which was found in his possession. He imagined his brother-in-law, Nelson Cole, had given the information which led to his arrest, and determined that his relative should not escape unpunished, revealed the fact to Detectives Smith and Darr that Cole had stolen the robe and with it a carriage valued at \$150, from P. W. Gravis of Oshtemo. A reward of \$500 was offered for the detection of the thief. The detectives located the buggy, which had been considerably altered and repainted, in the possession of Nye & Lee, to whom Cole had traded it. As the case was not within the jurisdiction of the detectives it was turned over to Deputy Sheriff Leonard, who arrested Cole. Gravis made complaint.

NORTON GOES TO JAIL.

He is Held for Trial and Cannot Furnish a \$5,000 Bail Bond.

In the Charles Norton criminal assault case the people concluded their side in police court yesterday and the testimony of George Canfield, Mate Parish and Eva Pennell, was read and signed. The story of the little children was straightforward and without a flaw. When the prosecuting attorney announced that his evidence was all in, the attorney for the defense also decided to close. Judge Haggerty sized the defendant up critically and then, regretting that he had not the power to finally dispose of the case, held Norton for trial at the next term of the superior court. The bail was fixed at \$5,000, in default of which he went to jail.

News Items of the Courts.

John Murphy, a vagrant, was sentenced to the county jail yesterday for twenty days by Justice Hydorn.

Lara Hanson was examined in police court yesterday on the charge of having stolen a coat from the union depot, and a pocket-book. The evidence introduced was not of a convicting nature, and the respondent's story was so plain that Judge Haggerty discharged him.

Fred W. Church was arraigned in police court yesterday, charged with the larceny of \$5 and a pair of gold cuff buttons from the Leland hotel, the property of James O'Rafferty. He pleaded not guilty and will have an examination January 27.

Lighting Conductors.

Dr. Hess, who has been collecting statistics and has examined the tips of many lightning rods, finds that fuses of the points never occur. A fine smooth point receives the lightning in a concentrated form, while angled or ribbed, as well as bent points, divide it into threads. Dr. Hess considers that platinum needles and tips are entirely unnecessary, for they have no advantage over copper points; but as there are lightning strokes which are capable of making wire 930 in. thick incandescent, unbranched copper conductors should never be of less diameter than this, though in a good lightning rod the main point is to secure perfect communication between it and the earth.

A Card!!

"The proof of the pudding is the eating," is a chestnut, but true just the same. While we don't placard our store with monstrous signs notifying people that we have "a hen on" selling \$20.00 coats for \$6.00, etc., and do not advertise a 1, 2 or 3 off sale we are well pleased with our overcoat trade this month. We took inventory right after New Years, and finding that the warm weather in November and December had left us with more overcoats than we should have now we marked them to a point where profits cut no figure. Within the last five days we have disposed of over sixty overcoats. Quite a few of the buyers had examined the overcoats offered at the great 1 off and wind-up, all off, etc., sales and concluded that we offered the best bargains.

We have about ninety fine Kersey, Auburn, Melton and choice Chinchilla overcoats left. We offer these at bare cost to close them as we cannot afford to carry them over, and to close buyers we extend a hearty invitation. We think we can suit them in price and style, if we cannot do so harm done. Remember you will not be talked to death if we can't sell you.
